MOTION: Amundson moved and Flowerday seconded approval of the resolution.

Schulte asked if the change would prevent companies from bidding for County projects. Candace Behrens, Deputy County Attorney, explained the change is to let others be more aware of the policy. Schulte expressed

concerns with the policy. Behrens explained the policy is to promote disclosing conflicts and not necessarily to prevent companies from bidding.

Board members, Behrens and Kroll discussed the potential impact of the resolution. Kroll stated his intent is not to exclude those with a potential conflict from bidding projects. Schulte noted Board members are already subject to similar rules under the Nebraska Accountability and Disclosure Commission (NADC).

Schulte proposed tabling the resolution so the County Attorney could review the resolution language.

John Ward, Deputy County Attorney, and Board members discussed how to proceed. Amundson withdrew her motion and Flowerday withdrew his second to the motion.

- I. Recommendation from the Purchasing Agent on behalf of County Sheriff to award and execute a Sole Source Purchase Order to Vigilant Solutions LLC for fixed license plate readers in the amount of \$85,136. (C-23-0885)

Spike Eickholt, ACLU of Nebraska, expressed opposition to the recommendation. He discussed the history of the use of license plate readers in the County and how they work. He displayed the County contract with the provider (Exhibit 2) and expressed privacy concerns. The State law on the issue only limits how law enforcement uses and stores the data, not the provider. He discussed a legal settlement between Google and the State regarding the issue (Exhibit 3). He urged Board members to vote against the item.

Wagner stated the cameras will be purchased using forfeited assets and that the Board had already approved the use of the cameras. Flowerday asked if the provider could sell collected data, and Wagner answered his understanding was they cannot. He said the license plate number is the only data collected. Ward confirmed that the provider is prohibited from selling data but is not subject to storage retention provisions in the State law.

MOTION: Schulte moved and Amundson seconded approval of the contract.

Larry Legg, Assistant County Engineer, presented a map of the area (Exhibit 4) and stated the bid was less than the estimated cost. He described the project and the area. The contractor will start work at the end of February, and the bridge will open at the end of June.

MOTION: Flowerday moved and Schulte seconded approval of the recommendation. Flowerday, Vest, Amundson, Schulte and Yoakum voted yes. Motion carried 5-0.

- K. Recommendation from the Southeast Nebraska Development District (SEND) to award a contract through the Lancaster County Owner Occupied Rehabilitation Housing Program for Project 003 to EZ Construction in the amount of \$3,800 to replace five windows (20-HO-001-LCRF).

III. Term; Termination.

This Agreement and the Enterprise License granted under this Agreement will be extended for a Service Period upon Affiliate's payment of that Service Period's Service Fee, which is due 30 days prior to the expiration of the Initial Term or the existing Service Period, as the case may be. Pursuant to Section XIII below, Affiliate may also pay in advance for more than one Service Period.

If within thirty (30) days of written notice of violation from Vigilant Affiliate has not reasonably cured the described breach of this Agreement, Affiliate shall immediately discontinue all use of Software Products and certify to Vigilant that it has returned or destroyed all copies of Software Products in its possession or control. If Vigilant terminates this Agreement prior to the end of a Service Period for breach, no refund for any unused Service Fees will be provided. Updates, patches and bug fixes of the Software Products will be made available to Affiliate at no additional charge, although charges may be assessed if the Software Product is requested to be delivered on physical media. Vigilant will provide Software Products support to Affiliate's Technical Support Agents through e-mail, fax and telephone.

VI. Camera License Keys (CLKs).

Affiliate is entitled to use of the Software Products during the term of this Agreement to set up and install the Software Products on an unlimited number of media centers within Affiliate's agency in accordance with selected Service Options. As Affiliate installs additional units of the Software Products and connects them to LPR cameras,

Affiliate is required to obtain a Camera License Key (CLK) for each camera installed and considered in active service. A CLK can be obtained by Affiliate by going to Vigilant's company support website and completing the online request form to Vigilant technical support staff. Within two (2) business days of Affiliate's application for a CLK, Affiliate's Technical Support Agent will receive the requested CLK that is set to expire on the last day of the Initial Term or the then-current Service Period, as the case may be.

VII. Ownership of Software.

A. Ownership of Software Products. The Software Products are copyrighted by Vigilant and remain the property of Vigilant. The license granted under this Agreement is not a sale of the Software Products or any copy. Affiliate owns the physical media on which the Software Products are installed, but Vigilant retains title and ownership of the Software Products and all other materials included as part of the Software Products.

B. Rights in Software Products. Vigilant represents and warrants that: (1) it has title to the Software and the authority to grant license to use the Software Products; (2) it has the corporate power and authority and the legal right to grant the licenses contemplated by this Agreement; and (3) it has not and will not enter into agreements and will not take or fail to take action that causes its legal right or ability to grant such licenses to be restricted.

A copy of all LEA LPR Data and LEA Booking Images generated by the Affiliate will be created and provided to the Affiliate. After the copy is created, all LEA LPR Data and LEA Booking Images generated by the Affiliate will be deleted from LEARN at the written request of an authorized representative of the Affiliate or per the Affiliate's designated retention policy, whichever occurs first. Commercial LPR Data, Commercial Booking Images, LEA LPR Data and LEA Booking Images should be used by the Affiliate for law enforcement purposes only.

X. Loss of Data, Irregularities and Recovery.

User logins are restricted to agents and sworn officers of the Affiliate. No User logins may be provided to agents or officers of other local, state, or Federal LEAs without the express written consent of Vigilant.

B. Security. Affiliate shall be responsible for assigning an Agency Manager who in turn will be responsible for assigning to each of Affiliate's Users a username and password (one per user account). A limited number of User accounts is provided. Affiliate will cause the Users to maintain username and password credentials confidential and will prevent use of such username and password credentials by any unauthorized person(s). Affiliate shall notify Vigilant immediately if Affiliate believes the password of any of its Users has, or may have, been obtained or used by any unauthorized person(s). Nebraska reaches \$11.9 million settlement with Google on location tracking data

Google announces \$750 million investment in Nebraska

LINCOLN — Nebraska has reached an \$11.9 million settlement with Google to close out a multistate investigation into the firm's location tracking practices.

Attorney General Doug Peterson announced the settlement Monday, along with the attorneys general of 39 other states. The agreement, worth \$391.5 million in total, is the largest multistate privacy settlement in U.S. history.

Along with the monetary settlement, the agreement requires Google to be more transparent with consumers about its practices, limits the firm's use and storage of certain types of location information and requires Google account controls to be more user-friendly.

The investigation began following a 2018 Associated Press story that revealed Google "records your movements even when you explicitly tell it not to."

The story focused on two Google account settings: location history and web & app activity. Location history is "off" unless a user turns on the setting, but web & app activity, a separate account setting, is automatically "on" when users, including all Android phone users, set up a Google account.

As detailed in the settlement, the attorneys general found that Google had violated state consumer protection laws by misleading consumers about its location tracking practices since at least 2014.

Specifically, the firm caused users to be confused about the scope of the location history setting, the fact that the web & app activity setting existed and also collected location information and the extent to which consumers who use Google products and services could limit Google's location tracking by adjusting their account and device settings.

Location data is a key part of Google's digital advertising business. Google uses the personal and behavioral data it collects to build detailed user profiles and target ads on behalf of its advertising customers.

Yet location data is among the most sensitive and valuable personal information Google collects. Even a limited amount of location data can expose a person's identity and routines and can be used to infer personal details.

The AP reported that the privacy issue with location tracking affected some 2 billion users of devices that run Google's Android operating software and hundreds of millions of worldwide iPhone users who rely on Google for maps or search.

Under the terms of the settlement, Google must show additional information to users whenever they turn a location-related account setting "on" or "off," make key information about location tracking easily seen and give users detailed information about the types of location data Google collects and how it's used at an enhanced "Location Technologies" webpage.

Peterson and the attorney general of Oregon led the settlement negotiations on behalf of the multistate group.

The location tracking investigation was separate from a federal antitrust lawsuit filed in December 2020 by Nebraska, Colorado and 36 other states. That case is scheduled to go to trial in September.
