Office / Agency / or Department Head

10-20-23

Date

10/20/2023

Sole Source Justification

Lincoln-Lancaster County Purchasing
440 S. 8th Street, Suite 200
Lincoln, NE 68508

Sole Source – Commodity: When an item or service is available from only one source due to the unique nature of the requirement, its supplier, or market conditions. Agency must clearly justify why this product cannot be competitively bid on this form.

Complete Sole Source Request, and attach a letter from the manufacturer, not a sales representative, on their company letterhead or other documentation stating they are the only provider of the product or service.

Requisition Number (If applicable): _____ **Department:** Lancaster County Sheriff's Office
Department Contact: Sgt. Jason Mayo **Title:** Sgt.

1. Explain why this product is necessary and what specifications are required to meet the need.

License plate readers (LPRs) have enhanced LE ability to locate missing persons, apprehend fugitives, detect law violations, recover stolen property, solve crimes and more. The purchase will expand LSO's LPR utilization footprint and infrastructure. Equipment purchased must "be able to interface with Motorola LE Archiveal Reporting Network (LEARN) currently being used by LSO.

2. Explain how and why ONLY the designated product meets the need. In general, what is there about the equipment/supplies which require that it be procured only from a single source? Why is the manufacturer or source uniquely qualified to provide the required item?

Vigilant Solutions is owned by Motorola. We currently utilize their LPR technology and LEARN software and are adding to that current package. No other company can interface with their system.

3. Specifically name, by manufacturer and model, or by provider, other products that were researched. (If fewer than 3, please explain)

We are already a customer of Motorola LPR and LEARN system which has proven reliable and we are happy with the product. See Question #2

4. State specifically how and why the other products researched do not meet the need.

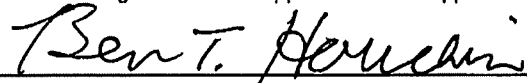

We are already a customer of Motorola LPR and LEARN system. LSO is adding to the footprint and instruction that we are already subscribed to.

Sole Source Justification

Lincoln-Lancaster County Purchasing
440 S. 8th Street, Suite 200
Lincoln, NE 68508

5. Describe any effort to identify other sources to furnish the required items. If no efforts were undertaken, state the reasons for not doing so. If other sources were contacted, state by whom and briefly, results.
- We are already a customer of Motorola LPR and LEARN system. LSO is adding to the footprint and instruction that we are already subscribed to.
6. Are the specifications for the item or equipment proprietary (i.e. patented, trademarked, exclusive) to the single source? If so, how was this determined?
- Motorola/Vigilant Solutions and LEARN are mutually exclusive to each other. See question #2.
7. Can generic specifications which set forth the minimum requirement for the needed purchase be developed? If not, explain why this cannot be competitively bid.
- We are already a customer of Motorola LPR and LEARN system. LSO is adding to the footprint and instruction that we are already subscribed to.
8. What steps are being taken to insure that future acquisitions of these supplies are made competitively?
- We are already a customer of Motorola LPR and LEARN system. LSO is adding to the footprint and instruction that we are already subscribed to.

By signing below, I am aware of and do justify the reasons as shown above for this purchase. The requesting department is solely responsible for the determination of facts supporting this request, and acknowledges Purchasing will rely on the requesting agency's accurate and complete reporting of facts when making a decision to approve or not to approve this request.

With new solutions entering the market for fixed and quick-deploy license plate recognition, here's some guidance to help you better understand how they work.

With new solutions entering the market for fixed and quick-deploy license plate recognition, here's some guidance to help you better understand how they work.

Collect targeted, tactical LPR data to aid an investigation, improve safety for an event or fill gaps in your LPR network with our quick-deploy LCC camera system. This solar, AC or battery powered camera can be installed and activated in minutes anywhere with cellular coverage to capture LPR data.

A simple string also allows you to easily install the IEC for serial testing. It is as easy as typing in a command:

Use the x, for points opposite, usually fill
grid in your VFR chart, not on a road
map, to show latitude and longitude.

B. The 160 or battery power
are easily removable from the
appliance - which is a good thing

Scan more vehicles and capture more data with our high-performance fixed-SF camera system. This solution is meant for those who never want to miss a vehicle because they never want to let a threat pass undetected, never want to miss a potential lead and never want to see a case go cold.

Direct vehicle control, such as a road cap or sign, will take a little longer and requires better

Seit 2005 ist die Anzahl an
Wahlberechtigten in der
Landesparlamentarischen
Versammlung

With a global reach, our new system
also handles plate orders in
various ways up to 10 LPH
